

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

It would be unfair to pay more for my telephone service. Please reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal, people who make few long distance calls would pay the same as people or businesses that make many calls. Low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for security and emergencies. I don't want to lose these benefits so that big businesses can pay less than their fair share. Please reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

Karen Lionetti
